

# DOCUMENT GENERATOR FOR ARIS

## CHALLENGE

Bridging the gap between process documentation in ARIS and generation of manuals in Microsoft Word

## FACTS AT A GLANCE:

- ARIS report & Microsoft word template
- Creation of clear and well-presented process manuals in Microsoft Word
- Quick and simple modification of the manual's design (display information in tabular form, in a text frame ...)

## SOLUTION

# REDUCE DOCUMENTATION CREATION EFFORTS

- Create & modify process manuals easily and quickly
- Reduce errors, gaps and redundancies
- Combination of ARIS report & predefined Microsoft Word templates for different use cases
- Working in familiar Microsoft Word environment
